A finance charge of 1.5% which is an annual percentage rate of 18% will be charged on all invoices not paid by the end of the next succeeding calendar month from the date of the invoice. See additional terms and conditions on the front of this form.

TERMS: payment shall be made as stated hereof, but all charge accounts shall be paid within 30 days. And further, purchaser, Contractor/Owner does hereby authorize and empower the Prothonotary, Clerk of Court or any Attorney of any Court of Record of Pennsylvania, or elsewhere, to appear, for and to confess judgment against me/us for the above sum, as of any term, past, present or further, with or without declarations, with cost of suit, release or errors, without stay of execution and with 15 percent added for collecting fees, and to collect this note and do hereby voluntarily condemn the same and authorize the Prothonotary to enter upon the FI FA my/our said voluntary condemnation and I/We further agree that said real estate me be sold on an FI FA and I/We hereby waive and release all relief from any and all appraisement, stay or exemption laws of any state, now in force, or hereafter to be.

SILICOSIS: is caused by exposure to respirable crystalline silica dust. Crystalline silica is basic component of soil, sand, granite and most other types of rock, and it is used as an abrasive blasting agent. Silicosis is a progressive, disabling and often fatal disease. Cigarette smoking adds to the lung damage caused by Silica. **Sources of Exposure:** Sandblasting for surface preparation, Crushing & Drilling rock and Concrete. Masonry and Concrete work (e.g. building & road construction & repair). Mining/tunneling, demolition work, Cement & Asphalt pavement manufacturing. **Symptoms of Silicosis:** Shortness of breath, possible fever, Fatigue, loss of appetite, Chest Pain, dry nonproductive cough, Respiratory failure, which may eventually lead to death. **Effects of Silicosis:** Lung Cancer Silica has been classified as a human lung carcinogen, Bronchitis/Chronic Obstruction Pulmonary Disorder. Tuberculosis-Silicosis makes an individual more susceptible to TB. Scleroderma a disease affecting skin, blood vessels, joints and skeletal muscles. Possible renal disease. **Preventing Silicosis:** Use all available engineering controls such as blasting cabinets and exhaust ventilation. Avoid using compressed air for cleaning surfaces. Use water sprays, wet methods for cutting, sawing, grinding, etc. Substitute non-crystalline Silica blasting material. Use respirators approved for protection against silica, if sandblasting use abrasive blasting respirators. Do not eat, drink or smoke near crystalline silica dust. Wash hands & face before eating, drinking, smoking away from exposure area.
